## ATTENDANCE POLICY

Staff members will constantly be aware of where their campers are at all times with scheduled attendance being taken before and after moving between locations as well as for an evening bed check.

If there is a camper missing, the Camp Director, Casey Brown, will be notified as quickly as possible and will initiate the Lost Camper Plan.

## PLAN FOR ADMINISTERING & RECORDING THE DISPENSING OF PRESCRIPTION MEDICATION

Prescription medication labels must be in the original container, include the players' name, physician and pharmacy name, the dosage and the date. The prescription must have a current date printed on it. The parent/guardian must sign the Authorization to Administer Medication to a Camper form and turn in the completed form.

The Health Care Supervisor will administer all medications under oversight by the Health Care Consultant. Exceptions of this policy will allow players with a known allergy or pre-existing medical condition, for whom an Epi-pen or inhaler has been prescribed, or who has an insulin pump, to be medicated by someone other than the Health Care Supervisor, including self-administered. In addition, if authorization by the parent/guarding and Health Care Consultant is given, the camper may carry these devices with them at all times, and use them if required. No other medications will be allowed to be self-administered.

All medications are to be kept in their original containers. Directions for giving non-prescription medication must be clearly specified in writing along with a statement from the Parent/Guardian giving permission for the Health Care Supervisor to administer it.

The Health Care Supervisor will inform the Health Care Consultant of any prescription medicines that will be dispensed. The Health Care Consultant shall acknowledge in writing, a list of all prescription medications administered.

Unused medicine will be given to the parent/guardian at the conclusion of the camp. Any medicine that cannot be returned will be destroyed by the Health Care Supervisor.

## **ALLERGIES**

Camper parents/physician are required to notify the Director of 'Sader Soccer Camp by Casey Brown Soccer Academy of any food or other allergies that the camper participant may have in the registration process.

## **PLAN FOR MILDLY ILL/INJURED CAMPER**

A mildly ill camper will be brought to a quiet location, away from the others where they can rest and be monitored by the Health Care Supervisor or an assigned staff member. The Athletic Training Room in the Hart Center shall be identified as the infirmary during the day. For an overnight camper, in the evening, a room will be set aside in the dorm that can be used as the isolation area for an ill player. For any non-emergency illness/injury, the Health Care Consultant will be available to discuss the case with the Health Care Supervisor. The Health Care Consultant will be available to evaluate any camper as needed. If the Health Care Consultant, or a designee of the Health Care Consultant is needed for evaluation, the parent/guardian will be notified by the Health Care Supervisor.
